THE WORLD NEVER BEFORE SAW SUCH A MASS OF HOME TESTIMONY GIVEN TO ANY OTHER MEDICINE.

Hampton's Vegetable Tincture! THE GREAT DISCOVERY OF THE AGE! READ! READ! READ!

Joy to the World !- Hope for the Afflicted !- Mor Testimony from Home!

Testimony from Home!

Messrs. Mortimer & Monebray: I feel it a duty to make known the benefits I have derived from Dr. Hampton's Tincture. For a length of time I have been subject to great prostration of muscular power, and great debility of the nervous system, accompanied with pulpitation and fluttering of the heart. I had such sudden attacks that on one occasion I could scarcely get home. I making mention of my case to a friend, he referred me to Joseph R. Stapleton, esq., an old and highly respectable citizen of Baltimore, who had used the Tincture under similar circumstances. I called on Mr. Stapleton, and, after an interview of some minutes, I was fully satisfied of the medical virtues of the Tincture, from the evidence before me, of his own person, who, for some time previous, indicated a falling state of health, but now a hearty, hale appearance, with the activity of youth. I immediately commenced using the Tincture, and, before I took the contents of one bottle, my strength was renewed, and I can walk as brisk and am as active as I was twenty years ago. This Tincture is the grand restorative of the digestive organs, which when destroyed, the whole system is in a state of suffering.

I do assert it is no humbug, but is, in reality, what it is represented to be by Dr. Hampton, the inventor.

Wm. A. Schaefeen,

Wonderful Cure of Hereditary Scrofula by Hamp ton's Vegetable Tincture!

This certificate is from the peu of a gentleman whose name appears on the journal of Congress, one who is extensively and favorably known:

name appears on me journas of sively and favorably known:

"It affords me pleasure to state that Dr. Jesse Hampton's Tincture has effected a most extraordinary cure of my slave boy, Albert. The patient was three years old, and had the Scrofula—(his father was scrofulous.) The boy was a moving mass of sores from head to foot; the upper lids of the eyes were much swollen, and turned inside out, exhibiting horrible mattering ulcers that protruded over the eye-balls so as to produce blindness. It is strange, yet true, this child, that I felt resigned to see die as a relief from suffering, has been restored to health under the treatment of Dr. Hampton.

"W. P. THOMASSON.

" Louisville, March 20, 1851."

REV. VERNON ESKRIDGE, U. S. N. Greater weight of Testimony cannot be given.

Mr. J. B. Boush—Dear sir: While I am, in general, opposed to patent medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family: and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

Chaplain United States Navy.

Still another Witness for "Hampton's Vegetable

Tincture! This certificate is from one of our largest and most enter-prising farmers—the owner of those splendid oxen exhibited at the late Agricultural Fair, and who, in person, did the ploughing, with the same, that took the premium. We mention this, as, before Mr. Horne took the Tincture, his condition was such as to despair of even visiting the Fair, much less taking such a laborious part as he did, to the astonishment of those who had seen his state a short time before:

astonishment of those who had seen his state a short time before:

Baltimore, Feb. 4, 1852.

Mesers. Mortimer & Movebray—Genves: Having been affilicted with Chronic Inflammatory Rheumatism for some time, in its worst form, I tried every remedy that came within my reach, without any success; in fact, my sufferings increased with every new remedy I tried, until I was searcely able to walk, from the dreadful pains and swelling in my limbs. I had also an ulcer formed on my right wrist, which gave me intense pain.

When in this condition, Mr. Scott, Conductor on the Susquehanna Railroad, with several others, called my attention to the many wonderful cures made by Hampton's Vegetable Tincture. I determined to give it a trial, as a last resort. You well remember my sufferings at the time I got the Tincture from you—they were almost past endurance. I am happy now to inform you that, in a short time after taking it, I was relieved from pain, and could walk without difficulty, and in about four weeks I was enabled to take part in the ploughing match at our late Agricultural Fair. The ulcer on my wrist is now entirely cured, and I am in the enjoyment of the very best health, with no symptoms of my old disease; all of which I feel bound to say I owe table Tincture.

My great confidence in it has induced me to recommend it

of my old use the great healing and restoract.

The great healing and restoract.

My great confidence in it has induced me to recommend it to others, and I have also seen its good effects in a number of cases. My little daughter had been in bad health for some time: no medicine seemed to reach her case, or to do her any good, until I gave her this Tincture of Hampton's, which soon restored her to robust health. I do therefore cheerfully bear my testimony in favor of this valuable medicine, and I wish you to send me a dozen bottles, that I may always have it at hand. Yours, respectfully,

ELISHA P. HORNE,

Monckton Mills, Baltimore county.

Stronger-Still Stronger . Stronger—Still Stronger!

Can any unprejudiced mind in the world ask stronger testimony or more convincing proof of the great restorative and curative powers of Hampton's Vegetable Tineture than given below? The writer is one of our most highly esteemed citizens, a man of integrity, and, it is extensively known, has been for a long time suffering under disease; his altered appearance now is a subject of remark, and gives additional testimony and weight to the certificate below. He is also the son of the old Dector Dunan, whose great skill as a physician is well known to most of the oldest inhabitants of this city:

city:

Baltimore, Feb. 9, 1852.

Messrs. Mortimer & Mowbray—Gentlemen: It is with real phassure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Some time during last November I was taken with a very bad and serious cough. I was advised to take Cod Liver Oil, and did so, but, getting no better, I was induced to try your Tincture. I got one bottle, and, before I had used it, all my cough left me. Permit me also to state, that for the hat fifteen years I have suffered very much from Acute Rheumatism and Vertigo, confining me, at times, to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me yours, very respectfully,

N. B.—I can be seen any time at the Mayor's office. G. D.

N. B .- I can be seen any time at the Mayor's office.

A CLOUD OF WITNESSES. A CLOUD OF WITNESSES.

We have certificates from Captain Canot, brother to the eminent physician to Louis Napoleon, President of the French republic, who was cured of Rheumatism of seven years' standing; one from Robt Gault, do., of seven years; one from Mr. Udham, Baltimore Custom-house, of a dread-ful case of dyspepais; one from Jno. Luke, of a case of dyspepais and general debility; and one from J. K. Stapleton, esq., of Baltimore, with hundreds of others.

22 HAMPTON'S TINCTURE is the great parifier of the blood—will cure Scrofula, Rheumatism, Colds, Cough, Liver Complaint, Diseasses of the Throat and Breast, &c.; a certain relief in all nervous complaints.

We ask the afflicted to call on those having this wonderful article for sale and get pamphlets, gratis.

The Flying Ship. A chance to secure a cash income of \$10 to \$20 per week for twenty years, by the investment of five

week for twenty years, by the investment of five dollars in advance.

It is extensively known that the understruct has by the ory and practical experiments so fully domonstrated the practicability of aerial navigation that all who have duly examined the subject are convinced; and no person, even of those whose interests are adverse to its success, can offer a word of rational argument against it. Several model machines have been constructed, and each of them has operated successfully; and one of them, sixteen feet long, carried a small steam-engine, by the power of which the machine was propelled, and, being guided by its own helm, travelled rapidly through the sir, even against a breeze of wind, in direct lines or circles, according to the adjustment of its helm. This machine was witnessed and applauded by hundreds in New York and Boston, and notices thereof were published in several newspapers of those cities at the time. Since those experiments were made, the inventor has made additional improvements, whereby the invention is now perfected. And it appears certain that a safe and durable aerial ship, (or aeroport,) capable of carrying one hundred and fifty passengers at a speed of ninety miles an hour, with more perfect safety than either steamboats or railroad cars, may be constructed for \$15,000, and that the expense of running it will not exceed \$25 per day. This aeroport will make the trip to California or to Europe in two days, and will be patronized with abundance of business (more than 50,000 per sons are now ready to engage passages) at \$200 per passage, which will amount to \$30,000 per trip, each way; or \$56,000 per week, besides \$4,000 for carrying mails. If this aeroport is owned in shares of \$5 each, a single share will produce an income of \$20 per week.

It is ascertained, by a minute and careful estimate, that an aeroport 150 feet long, and capable of carrying five persons at a speed of sixty miles per hour, may be constructed for \$1,500. Now, having been disappointed of the funds requisite to p

practical utility, I propose that it three hundred persons will subscribe five dollars each, payable when the whole amount of \$1,500 shall have been subscribed, I will forthwith construct this pioneer acceport, (which may be done in six weeks;) and when this is put in operation, I can readily command the requisite funds for constructing a large acroport, as above mentioned. And I will so arrange that each subscriber, on the payment of the said sum of five dollars, shall be furnished with a regular title-deed, which shall entitle the holder thereof to one three-thousandth part of this first aeroport, and also to one three-thousandth part of the first large aeroport that shall be constructed, and of all benefits and emoluments that may be derived therefrom for twenty years; the said aeroport to be kept in repair without expense to the shareholders. Subscribers will not be restricted to single shares, but each may hold as many as he is disposed to subscribe for at first; and will receive dividends accordingly, which, according to the foregoing estimate, will be \$20 per week on each share, payable weekly or monthly. Subscribers may send their names to my address by mail, (prepaid,) and the same will be duly entered on the subscription-book, (which already contains about fifty names of subscribers in this city,) and notice will be sent (prepaid) to each when the three hundred shares shall have been taken; and the money may be sont either to me or to the firm of Selden, Withers & Co., (well known bankers of this city,) who will, on the receipt thereof, forward to each subscriber a title-deed, as above stipulated, and will net as treasurers for the shareholders, and transfer the money to me as the progress of the work requires. Each subscriber will be furnished semi-monthly with a printed news-letter, reporting the progress of the work requires. Each subscriber will be furnished semi-monthly with a printed news-letter, reporting the progress of the work.

Editors or publishers of newspapers who will give the foregoing

WASHINGTON March 16 1852 WASHINGTON, March 16, 1852.

P. S.—It is confidently believed that by this invention maxplored regions may be examined, and the light of civilisation and Christianity may be disseminated through beinghted lands with facility; and that the world will honor the names of those who now subscribe to aid the introduction of an invention calculated to confer immense benefits upon the entire human race.

mar 9—tf JOHN L. SMITH.

FARM NEAR WASHINGTON FOR SALE. THE subscriber offers for sale his Farm, situated about five miles from Washington, D. C., in Prince George's county, Md. It contains 1781 acres, more than 30 of which is a fine alluvial meadow, producing a ton and a half of hay to the acre, but which under improved cultivation would produce at least two tons. Hay sells in the Washington market at from \$14 to \$20 per ton. About four acres of the place is a marsh, covered with several feet in thickness of black earth, the result of decayed vegetation, which, properly composted, is a source from which the upland may be enriched at a reasonable cost. About 60 acres of the farm is woodland—growth principally oak and chestnut. The land, except the mendow, is undulating, and affords many beautiful sites for building. There are many springs of excellent water on the place, and it is noted for its healthfulness. The soil of the greater part of the upland is a sandy loam, underlaid by clay—in some places, clay predominating. About 75 acres could be divided into small gardening farms, giving nearly an equal quantity of wood and arable land to each. There is an orchard of 150 peach treas and 56 armle trees on the place all bear. peach trees and 60 apple trees on the place, all bear-ing: also, about two hundred apple trees, ready for grafting. It is well fenced. The buildings are—a log house of four rooms, with a frame addition of three rooms, a meat-house of sun-dried brick, a log kitchen separate from the dwelling, a corn-house, stable, carriage-house, &c. There is a stream of water running through the place, with sufficient water and fall for small mill. Price, \$40 per acre. Terms—one-thin

LADIES' GAITER LACES! LADIES' GATTER LACES!

For sale by A. GRAY.

BE WISE IN TIME!

DR. BROTHERS'S Remedy for Cholera, or Cholera-Morbus, puts all competition at defiance, as being allogether the most effectual remedy to be found for this terrible disease; and where it is administered in time, according to the directions, it rarely falls to arrest the disease. In all cases a physician should be called as soon as possible; but, as frequently occurs, some time must necessarily elspase before he can arrive, and the sad experience of 1832 is a warning to every family to have some effectious and active remedy to stay the fearfully rapid progress of this disease until his arrival. As the majority of cases are proceeded by Diarrhoes, more or less violent, which, if properly checked, prevents an attack of the Cholera, the Dector would recommend his Diarrhoea Remedy, which will always invariably check it in a few hours. A cure will be guarantied, or the money refunded.

Easy Shaving.—It will be seen by reference to Selby Parker's advertisement, that the Razor Strop Powder therein referred to is strongly recommended in the National Intelligencer, by a gentleman who has proved its virtue and value. A respected citizen, who called upon us yesteriay, assures us that he has tested the Razor Strop Powder, and found it to be worthy of the strongest recommendation.—Witchington News.

Washington, March 12, 1849.

We, the undersigned, having fairly tested Parker's Metallic Razor Strop Powder, to which the Maryland Institute has awarded a premium, take great pleasure in certifying that it will keep the Razor in fine smooth shaving order without the use of the hone:

J. W. MACPHERSON BERRIEN, U. S. Senator, W. W. SEATON, Mayor of Washington City, W. S. ARCHER, House of Representatives. Rev. T. M. REESE, Washington city.

THOS. J. RUSK, U. S. Senator.

HIRAM WALLEIDGE, esq., New York city. WARRINGTON, Dec. 23, 1848.

Washington, Dec. 23, 1948.

Mr. Parker: I have made a fair trial of your preparation for sharpening Razors, and think it due to you to state, in perfect sincerity, that I consider it altogether inimitable—never having met with anything to be compared to it, for that purpose; and permit me to add. If my testimony can be of any use in increasing the knowledge of its merits, avail yourself of it at discretion.

Yours, very respectfully, LEWIS JOHNSON, mar 23—tf

NEWS BY TELEGRAPH.

The Markets.

BALTIMORE, April 8-8 p. m. Sales of four hundred barrels Howard-street four have been made to-day at \$4.06, and four hundred barrels City Mills at \$4. The market is dull.

NEW YORK, April 8-21 p. m. Two thousand barrels of flour have changed hands at \$4.18@\$4.37. Grain is unchanged. Cotton is drooping. Stocks are firm.

Local Election at St. Louis—Fearful Riot and Bloodshed.

Sr. Louis, April 6.

The returns of the election held in this city yesterday for corporation officers indicate, as far as received, the election of the Whig ticket, with but three exceptions. The first ward returns have not yet been received. Mayor Kennet has been re-elected mayor by from six to seven hun-

A most disgraceful riot occurred in the first ward last night, which, we regret to add, resulted in the death of six persons, and the wounding of

some five or six others seriously. After the polis had closed, and whilst a crowd of the friends of the successful candidates were passing Werckmeyer's tayern, a German coffechouse at the corner of Seventh street and Park avenue, five or six guns were fired upon the multitude, fatally wounding six persons, who died a short time thereafter. Several others were carried off severely wounded. The excitement occasioned by the outrage was, of course, most intense, and the infuriated crowd rushed into the house, and completely demolished its contents, and then set fire to the building. Two other buildings adjoining, inhabited by Germans,

were also fired and destroyed by the mob. The crowd were again fired upon, at the corner f Park and Carondelet avenues, and a member of the St. Louis Fire Company was mortally wounded. The house from which the shot had been fired was immediately riddled, and the

crowd pursued their way up town and dispersed. Later at night, a crowd collected around the office of the "Anzeiger Die Western," the German newspaper, when the military were ordered out by the mayor, and, having mustered in force around the block in which the office was situated. kept the crowd at a distance throughout the night. The office appeared to be deserted, the proprietors having probably anticipated an attack. The city is now perfectly quiet, and order appears to be restored.

Missouri Democratic State Convention. St. Louis, April 7.

The Democratic convention at Jefferson City eassembled this morning, and, after transacting ome unimportant business, adjourned until tomorrow, when it is understood the committee will be ready to report.

Affairs in Georgetown.

The water in the Potomac, at this point, con-

tinues very high. This morning it is flowing over

Georgetown, April 8-12 m.

many of our wharves, and a strong current running. Fears are entertained, should the present easterly winds and rain continue for any length of time, that a heavy freshet will ensue. Many of our Water-street merchants are preparing for

the worst, by removing their flour and other goods from the lower floor. The flour and grain markets remain unchanged.

Speculators are shy of operating to any extent. Business upon our canal continues heavy. Since our last report, twenty-five boats have arrived. with large cargoes of flour, wheat, corn, coal, wood, &c., from different points. Twenty have

departed, with assorted cargoes. ELECTRO.

Omnibus Proprieties. Our observations, made during an omnibus experience of several years, teaches us that it is considered quite polite to keep a seat, when the coach is full, even though a sick woman with her child may be the applicant for admissiown stopping-place but a half square off. It is also polite to hold a wet umbrella on rainy days in such a manner that the drippings from it will fall on your neighbor's toes. It is polite, in getting in and going out, to place your hands on the knees of those you have to pass, and generally to make a sort of temporary balustrade of every one's person. It is polite, if you are smoking when you stop the coach, to ask the company if a cigar is disagreeable, instead of throwing it away at once. It is polite to have all the windows down, or up, as may suit your own wishes, without reference to the comforts of the other passengers; and to insist on this, unless some bold and decided individual interferes to check your selfishness. It is polite to stare the ladies out of countenance: to converse about them in whis-

pers with your companion. As to the ladies. It seems, by long-established practice, to be understood that it is polite for la-dies to crowd into an omnibus, no matter how tong and healthy they may be, and no matter many fatigued and even sick of the other sex they may turn out. It is polite, if courteously told that the omnibus is full, to answer sharply that you must have a seat, and to fix your eyes immediately on the most bashful man present, and so force him to give up his seat. It is polite, when five of you are on one side, to spread out your dresses, so as to prevent the sixth passenger from obtaining a seat. It is polite not to look for your money till you have stopped the coach, and then to keep everybody waiting for five minutes, or till you have hunted up the change. It is polite never to have anything less than a gold dollar, so as to force the driver to change it, though silver is worth three per cent.

[Phil. Bulletin.

The Passover. Saturday evening last was the beginning of this imposing ceremonial, kept by the people of Israel, the chosen of the Lord. Seven days every year they are required to eat unleavened bread, to the exclusion of all ordinary bread, or things made of or mixed with corn, in memory of the mighty wonders wrought in their favor when they were redeemed from Egypt. "Seven days shall ye eat unleavened bread,

even before the first day ye shall put away leaven out of your houses. And ye shall observe the feast of unleavened bread, for on this self-same day have I brought your armies out of the land of Egypt; therefore shall ye observe this day throughout your generations, as an ordinance forever. - Exodus, xII, 15, 17. The first and the seventh, and also the second day of the festival, are observed as days of abstinence from labor; likewise an additional or eighth day, as is the case with other festivals, at which

the children of Jacob out of Palestine have, for

many hundred years, kept an additional day beyond the period absolutely commanded in the law.—Norfolk Herald. The New York Dutchman says: "There is a man connected with one of our theatres whose nose is so large that he has to blow it with a bootjack." The Dutchman has an extensive imagination, but he don't come up to the ability of the Greek epigrammatist, who tells of a fellow whose nose was so long that he couldn't hear himself

The city council of Albany has agreed to loan one million of dollars to the Susquehanna and Albany railroad.

Together with a general assortment of seasonable Dry
